PROFILE SUMMARY

I am a BS Information Technology student at Islamia University Bahawalpur and a passionate Frontend & Full Stack Developer with hands-on experience in building modern web applications. I have completed professional training and gained practical industry experience through freelancing and an internship at Curelogics, where I worked on real-world projects and collaborated with development teams.

My technical skills include React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, and basic backend development with Node.js and Express.js. I enjoy creating responsive, user-friendly, and high-performance web applications while following clean coding practices.

SKILLS

- HTML
- CSS
- JavaScript
- React.js
- MongoDB
- Web Design
- Tailwind CSS
- Node.js
- Express.js

WORK EXPERIENCE

Mern Developer

Completed a MERN Stack internship at MercurySols, where I gained hands-on experience in web development and worked on real-world projects. Developed responsive and user-friendly interfaces using HTML, CSS, JavaScript, and React.js, collaborated on frontend development tasks, resolved bugs, and enhanced UI/UX based on project requirements and user feedback.

Call Center

Worked as a Customer Service Representative in a call center environment, handling customer inquiries and providing professional support. Developed strong communication, problem-solving, customer relationship management, and teamwork skills while working in a fast-paced environment. Experienced in maintaining customer satisfaction and managing interactions effectively.

Business Management

Completed professional Business Management training at Cure Logics and gained practical experience in client communication, lead generation, proposal writing, and requirement gathering. Skilled in identifying business opportunities, building client relationships, understanding customer needs, and coordinating with teams to ensure successful project delivery. Experienced in handling client interactions professionally and contributing to business growth through effective communication and problem-solving.

PROJECT EXPERIENCE:

Lead Gen PRO – Insurance Website

Developed responsive and user-friendly UI components for an insurance web platform. Worked closely with the design team to implement clean, consistent layouts across devices. Focused on creating intuitive navigation and ensuring a pixel-perfect frontend experience.

Collabry – Meeting App

Designed and built modern user interfaces for a meeting and scheduling web application. Collaborated with developers to implement screens, modals, and form elements while maintaining responsiveness and consistent styling. Ensured frontend code quality and a seamless user experience across different devices.

Kick Expert – AI Football Quiz Platform

Developed a dynamic football quiz and AI-powered Q&A platform for football fans. Built responsive and engaging user interfaces and integrated AI-driven features for intelligent football history answers. Implemented admin and user dashboards for quiz management, user engagement, and performance tracking.

Vendcom – Business Management & Vendor Platform

Developed and maintained responsive user interfaces for a business and vendor management platform. Built reusable components and modern dashboards while ensuring a seamless user experience across devices. Integrated APIs for data management, implemented dynamic forms, optimized application performance, and collaborated with the team to deliver scalable and user-friendly solutions. Contributed to UI/UX improvements, bug fixing, and feature enhancements based on project requirements.
